

Total Solutions for Floor Care - Maintainers

Maintaining: By combining burnishing or spray buffing with thorough cleaning, you can enhance the appearance and increase the life of the finish. Maintaining or Restoring a floor is a relatively simple and quicker method of “repairing” the finished floor compared to Scrub & Recoat or Stripping & Finishing.

Diversey can help you to choose the best floor maintainer to meet your appearance and cost goals. Our floor maintainers are part of a comprehensive floor care line integrating chemicals, application tools, smart machines, pads, training & support.

FLOOR MAINTAINER

Shiner

For conventional maintenance systems. Gives you that “just-finished” shine. Keeps your floors looking their best at all times. Delivers state-of-the-art performance and cost efficiency.

Snapback™ Spray Buff

For conventional maintenance systems. Gives you that “just-finished” shine. Keeps your floors looking their best at all times. Delivers state-of-the-art performance and cost efficiency.

Revive®

Formulated for daily use and does not require burnishing after each application. Use through an auto scrubber or with mop and bucket.

Revive® Plus SC

Unique patented cleaner/maintainer formula can be used for daily cleaning. Floor stays cleaner, longer. Unique formula designed to repair microscopic scratches.

Speedtrack®

Floor cleaner for scrub and recoat. Reduces powdering, improves traction and extends recoat cycle. Saves time and labor. Excellent for removing marks and scuffs from floor finish.

No Maintenance Flooring Emulsion ProX

No Maintenance Flooring Emulsion ProX is specifically formulated for use on no maintenance, LVT and textured vinyl flooring. It has a unique polymer formulated with the technology of Wiwax™ ProX maintenance emulsion and periodic gloss rejuvenator.

Wiwax™ ProX

Wiwax™ ProX Maintenance Emulsion is a unique blend of waxes, polymers and detergents to effectively rejuvenate and maintain rubber as well as linoleum, asphalt, marble, stone, concrete and slate flooring.

SPECIALTY

When selecting the right floor maintainers, several key elements should be considered

- Substrate: What type of floor material will we be working on?
- Maintenance program: Conventional vs. Multi-Maintenance
- Application method: Access to an auto scrubber
- Available resources: Your available labor, tools & equipment, frequency and access to the floors.

Use the guide to select a floor maintainers that best aligns to your maintenance program
