## Suma D-GREAZEE D9.9

### Safer Cleaning. Serious Results.

#### Designed for high-demand professional kitchens

Revolutionise oven and grill cleaning with a solution that delivers on **safety, performance, and cost efficiency.**

Specially formulated for high-grease kitchen environments, concentrated Suma D-GREAZEE D9.9 delivers a ready-to-use solution through our Divermite / DFQM system ensuring consistent, outstanding results every time. With **low odour** and **high-performance cleaning** power, it enhances user experience while enabling your team to safely and effectively remove grease and carbonised soil from ovens, grills, and fryers.

#### PPE Free

Powered by the latest formulation technology, Suma D-GREAZEE delivers high-performance cleaning for ovens, grills, and fryers—without the need for gloves, goggles, or masks. Get outstanding results with a simplified process that puts your team's protection first, all while maintaining uncompromising cleaning power.

#### Sustainability

Formulated for impact, the high-performance concentrate delivers exceptional cleaning while dramatically reducing plastic use and emissions. There are 59 ready to use bottles in every case. Packaged in fully recyclable plastic and lower in CO<sub>2</sub> footprint. Compact and concentrated for maximum impact — with less waste.

#### Performance

Experience powerful, caustic-free performance with Suma D-GREAZEE. Its advanced, low-odour formula delivers superior results on all surfaces, including aluminum. Designed to tackle tough grease and carbonised soil, it helps you effectively manage grease build-up while providing a safer, more pleasant user experience every time.
