

Suma[®]

Suma D-GREAZEE D9.9

Safe Cleaning. Serious Results

Designed for high-demand professional kitchens

Revolutionise oven and grill cleaning with a solution that delivers on **safety, performance, and cost efficiency**. Specially formulated for high-grease kitchen environments, concentrated Suma D-GREAZEE D9.9 delivers a ready-to-use solution through our JFill /Optimus system ensuring consistent, outstanding results every time. With **low odor** and **high-performance cleaning** power, it enhances user experience while enabling your team to safely and effectively remove grease and carbonised soil from ovens, grills, and fryers.

PPE Free

Powered by the latest formulation technology, Suma D-GREAZEE delivers high-performance cleaning for ovens, grills, and fryers—without the need for gloves, goggles, or masks. Get outstanding results with a simplified process that puts your team's protection first, all while maintaining uncompromising cleaning power.

Sustainability

Formulated for impact, the high-performance concentrate delivers exceptional cleaning while dramatically reducing plastic use and emissions. There are 44 ready to use bottles in every case, lowering the CO₂ footprint. Compact, concentrated, and designed for sustainability.

Performance

Experience powerful, caustic-free performance with Suma D-GREAZEE. Its advanced, low-odor formula delivers superior results on all surfaces, including aluminum. Designed to tackle tough grease and carbonised soil, it helps you effectively manage grease build-up while providing a safer, more pleasant user experience every time.
