

# Complete Solutions for Hospitality

Creating safer, healthier and more efficient environments

Cleaning & Hygiene | Water Management | Water Sanitization

# Complete Solutions for Hospitality

Having joined forces with Solenis, Diversey now offers a complete portfolio of innovative products for hotels, resorts and cruise ships, including solutions for cleaning and hygiene, water management, and water sanitization. Combining this comprehensive range of solutions with the expertise of our applications specialists, we can help you to create safer, healthier and more efficient environments — all while reducing your operational costs and impact on the planet.

## Everything You Need to Succeed

Your guests expect clean, safe and fresh-smelling environments. And you need to strengthen your brand, manage labor and utility costs, and minimize your environmental footprint. As a global leader in cleaning and hygiene, water management, and water sanitization, we are uniquely positioned to help you meet your goals and ensure a first-rate experience for your guests. Regardless of the size of your operation, we have the chemical and equipment solutions you need to succeed.

## Knowledge and Applications Expertise

Diversey is committed to helping you create cleaner and safer environments for your guests, reduce your operational costs, and minimize your use of water and energy. Achieving these goals requires innovative technologies. However, it also requires deep technical knowledge on applications.

Working side by side with your team, your Diversey field representative becomes familiar with your operation and applies this knowledge to design a comprehensive treatment plan to address your specific needs. Supporting your field representative is a dedicated team of applications specialists who can troubleshoot any problems and specify best practices.

Armed with the right technologies and a complete understanding of your needs, our field representatives and applications specialists are uniquely positioned to help you establish new benchmarks for your operation. So, whether you need help addressing an operational or sustainability challenge, you can count on our team to provide a cost-effective solution that meets or exceeds your expectations.
