

Your Trusted Business Partner

With environmental regulations and overhead costs continuing to increase, rendering companies are looking for innovative ways to ensure environmental compliance, conserve resources, and lower costs. Matching the best solutions to a rendering plant's needs requires industry experience, broad capabilities, and application expertise.

Chem-Aqua has been a water solutions leader in the rendering industry for decades. We understand the unique air quality and water concerns facility managers face. Our goal as a valuable business partner is to provide effective solutions that solve water problems, lower costs, and protect valuable equipment.

**Increase
Equipment Efficiency**

**Reduce
Water and Energy**

**Reduce
Operational Costs**

**Reduce
Odors**

Program Benefits

Effective water and process solutions to help:

- Optimize chemical treatment costs
- Reduce water and energy costs
- Improve operating efficiency
- Ensure microbiological control
- Reduce equipment downtime
- Help meet environmental and regulatory compliance
- Reduce employee hazards
- Handle odor control and dust reduction

Complete Solutions Provider

Full service water treatment solutions provider offering programs and equipment for:

- Wet Air Scrubbers
- Steam Boilers
- Process Cooling
- Wastewater
