Solenis' Position on European Union Substances of Very High Concern (EU SVHC)

<u>Solenis</u> is committed to continuous improvement and innovation to strengthen our customer relationships by contributing to the creation of a more sustainable future.

Substances that may have serious and often irreversible effects on human health and the environment can be identified as <u>Substances of Very High Concern</u> (SVHCs). If a substance is identified as an SVHC, it will be added to the <u>Candidate List</u> for eventual inclusion in the <u>Authorisation List</u>.

What are SVHC substances? These are substances that meet the criteria for classification as carcinogenic, mutagenic or toxic for reproduction (CMR) category 1A or 1B in accordance with the European CLP Regulation. Another group of SVHC are substances which are persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) according to REACH Annex XIII. The last group of SVHC substances are substances assessed on a case-by-case basis, that cause an equivalent level of concern as CMR or PBT/vPvB substances.

Solenis, as a trusted partner, anticipates the challenges that come with having an SVHC substance in a product and strives to tackle uncertainties by collaborating with the customer while engaging the right people that have the right experience to ensure the replacement of an SVHC substance in a product or offer a product substitute. Through our internal chemical database, Solenis is continuously monitoring the impacted product ingredients to ensure a timely elimination of an SVHC substance wherever feasible.

Solenis' has procedures and programs in place for SVHC substance replacement that ensure compliance with the European Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) obligation of a Supplier. We are proactively informing our customers located in Europe, when SVHCs are present in a product that are part of the EMEA portfolio at reportable levels.

See table below for impacted products list as of 23th Jan 2024 Candidate List update.

If you have questions regarding this subject, please contact us via your Solenis representative or send an e-mail to <u>REACH-Solenis@solenis.com</u>

Yours Sincerely, <u>Product Regulatory</u> REACH Team
